

ICS AWARDED CONTRACT FOR WORLD CONFERENCE ON LUNG CANCER

Vancouver, BC, Canada - March 12, 2010

International Conference Services Ltd. (ICS) is proud to announce that the International Association for the Study of Lung Cancer (IASLC) has once again awarded ICS with the contract to organize several World Conferences on Lung Cancer (WCLC). The new agreement extends the ICS-IASLC working relationship for 2013, the 15th WCLC in Sydney, Australia; 2015, the 16th WCLC in Denver, USA; and 2017, the 17th WCLC to be held in Europe.

ICS responded to the request for proposal for a Professional Conference Organizer (PCO) by IASLC and met with tough competition from international contenders. After a lengthy deliberation and interview process, the IASLC decided that ICS continues to be the best fit for their conference planning needs internationally.

This continues the ICS-IASLC partnership which has been established through providing excellent service, consistent growth and detailed planning for success. Our previous collaboration includes: 2003, the 10th WCLC held in Vancouver, Canada; 2007, the 12th WCLC held in Seoul, Korea, and 2009, the 13th WCLC held in San Francisco, USA. During this time, delegate participation in this international leading conference has nearly doubled; the 2009 WCLC conference achieving delegate numbers over 6,200. ICS and IASLC are aiming to continue the momentum for 2011, the 14th WCLC in Amsterdam, The Netherlands; anticipating upwards of 7,000 delegates.

Planning conferences with IASLC across three continents and seven cities, ICS has secured its place as an international authority in organizing both small and large-scale scientific meetings.

"I am extremely proud of the efforts my staff has expended over the past several years to earn both the trust of the IASLC board and their conference delegation. Several of our clients operate in the field of oncology which helps my company to strongly identify with the goals of the association. ICS is pleased to be a part of a growing community of medical professionals whom are striving towards the elimination of one of the planets most terrible afflictions.

This is a great example of how a long-term partnership with ICS proves beneficial to our clients in terms of meeting financial goals and maintaining quality control from one conference to the next."

Mathias Posch, President
International Conference Services

Established in 1976, International Conference Services Ltd. (ICS) has a great track record in organizing large events in its headquarters city of Vancouver, Canada and around the world. ICS recently expanded by opening an additional office in Vienna, Austria to better serve their European clientele.

Since 1978, the IASLC has held a WCLC approximately every two years. An international association of professionals engaged in the study of oncology, membership in the IASLC is open to any physician or member of the health professions or scientist interested in lung cancer. Visit www.iaslc.org for more information.
